

StonePh Neutral Countertop Cleaner

1. Identification

GHS Product Identifier

GD-SWCC

Other means of identification

StonePH Neutral Countertop Cleaner

Recommended use of the chemical and restriction on use

Ready to Use Neutral Cleaner for Countertops

Supplier's details

Stone Care Systems
20770 Westheimer Parkway, Suite 501
Katy, Texas 77450

Emergency phone number

Canutec - 1-888-226-8832

2. Hazard(s) identification

Classification of the substance or mixture

Skin corrosion/irritation - Category 2 H315

Serious eye damage/eye irritation - Category 1 H318

GHS label elements

Danger

Causes skin irritation

Causes serious eye damage

Wash hands thoroughly after handling.

Wear protective gloves/protective clothing/eye protection/face protection.

IF ON SKIN: Wash with plenty of soap and water.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Immediately call a POISON CENTER or doctor/physician.

If skin irritation occurs: Get medical advice/attention.

Take off contaminated clothing and wash it before reuse.

Other hazards which do not result in classification

Emergency overview: May cause eye irritation.

Carcinogenic status: Not known to be carcinogenic.

See TOXICOLOGICAL INFORMATION, section 11.

Additional health hazards: See TOXICOLOGICAL INFORMATION, section 11.

Potential environmental effects: See ECOLOGICAL INFORMATION, section 12.

3. Composition/information on ingredients

| Description | CAS Number | EINECS Number | % | NOTE |
|---------------------|------------|---------------|-------|------|
| Decyl Glucoside | 68515-73-1 | | 1 - 5 | |
| Ethoxylated Alcohol | 9002-92-0 | | 1 - 5 | |

4. First-aid measures

Description of necessary first-aid measures

Eye: Immediately flush with water for 15 minutes. Holding eyelids open during flushing. If irritation persists, seek medical attention immediately.

Skin: Immediately flush with water for 15 minutes. Seek medical attention immediately if irritation persists. Remove contaminated clothing and launder before reuse.

Inhalation: Move to fresh air. If symptoms persist, seek medical attention.

Ingestion: DO NOT induce vomiting. Give several glasses of water. Never give anything by mouth if the victim is unconscious or convulsing. Seek medical attention.

5. Fire-fighting measures

Suitable extinguishing media

That for surrounding materials.

Non-Flammable.

No oxidizing properties.

Specific hazards arising from the chemical

Carbon dioxide, carbon monoxide, nitrous oxide, ammonia.

Special protective actions for fire-fighters

No data available.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

All personnel dealing with accidental release should take necessary precautions as outlined in EXPOSURE CONTROLS AND PERSONAL PROTECTION, SECTION 8.

Environmental precautions

Stop and contain spill.

Methods and materials for containment and cleaning up

Pick up with a wet vacuum or dilute with large amounts of water. (See DISPOSAL CONSIDERATIONS, section13).

7. Handling and storage

Precautions for safe handling

Do not ingest. Do not get in eyes, on skin, or on clothing. Do not breathe dust/ fume/ gas/ mist/ vapors / spray. Use only with adequate ventilation. Wash hands thoroughly after handling.

Conditions for safe storage, including any incompatibilities

Store at room temperature. Keep from freezing.

8. Exposure controls/personal protection

Control parameters

Good general ventilation should be used.

Appropriate engineering controls

Good general ventilation should be used.

Individual protection measures

Skin: Gloves made of rubber or vinyl should be used. Prior to use, user should confirm impermeability. Discard contaminated gloves. Wash and dry hands after use.

Eyes: Safety goggles or face shield should be used. Ensure equipment is properly fitted for the user. Equipment should be tested and approved under government standards. Contact lenses should not be worn when working with this material.

Respiratory: Not normally required. If in poorly ventilated areas, self-contained breathing apparatus should be used. Ensure equipment is properly fitted for the user. Equipment should be tested and approved under government standards.

9. Physical and chemical properties

| | | | |
|----------------------------|-------------------|---------------------------------------|-------------------|
| Physical State: | liquid | Appearance / Colour: | yellow |
| Odor: | lemon | Odour Threshold | no data available |
| Boiling Point: | 100° C | Freezing Point | no data available |
| Relative Density (water=1) | no data available | Solubility in Water | complete |
| pH | 7.0 | Partition coefficient, n-Octano/Water | no data available |
| Vapor Pressure | no data available | Vapor Density (air=1) | no data available |
| Evaporation Rate | no data available | Flash Point | no data available |
| Specific Gravity | 1.02 | Density | no data available |
| Viscosity, Kinematic | no data available | Explosive Limits | no data available |

10. Stability and reactivity

Reactivity

Normally stable.

Chemical stability

Normally stable.

Possibility of hazardous reactions

not known

Conditions to avoid

Extreme heat and cold.

Incompatible materials

none known

11. Toxicological information

Toxicological (health) effects

Irritant.

Information on the likely routes of exposure

Eyes, skin, ingestion and inhalation.

Symptoms related to the physical, chemical and toxicological characteristics

INGESTION: Adverse symptoms may include the following: stomach pains

EYE CONTACT: May be irritating: Adverse symptoms may include the following: pain, watering, redness

SKIN CONTACT: May be irritating: Adverse symptoms may include the following: pain, irritation, redness

Delayed and immediate effects and also chronic effects from short and long term exposure

May cause severe eye irritation. May cause mild skin and respiratory irritation. May cause irritation in mouth, throat and abdomen upon ingestion.

Numerical measures of toxicity (such as acute toxicity estimates)

| Ingredient | LD50 (Oral) | LD50 (Dermal) | LD50 (Inhalation) |
|--|-------------|----------------|-------------------|
| Coconut DIPA | No data | No data | No data |
| Ethoxylated alcohol | >2000 (rat) | No data | No data |
| C8-14 Alkyl Polyglucoside/ Decyl glucoside | >5000 (rat) | >4000 (rabbit) | No data |

Interactive effects

No data available.

Where specific chemical data are not available

Acute toxicity estimates (ATE) : >15000 mg/kg (Oral), >39000 mg/kg (Dermal)

Toxicity Respiratory or skin sensitization: May cause reddening and irritation upon exposure. may cause irritation of respiratory tract

Carcinogenicity: no data available

Reproductive effects: no data available

Germ cell mutagenicity: no data available

Teratogenicity: no data available

Mixtures

No data available.

Mixture versus ingredient information

No data available.

12. Ecological information

Toxicity

No data available

Persistence and degradability

No data available.

Bioaccumulative potential

No data available

Mobility in soil

No data available

Other adverse effects

No data available.

13. Disposal considerations**Disposal methods**

Dispose of waste material in accordance with all local, regional, national and international regulations

14. Transport information**UN Number**

Not classified.

UN Proper Shipping Name

Not regulated

Transport hazard class(es)

Not classified

Environmental hazards

No data available

Special precautions for user

No special precautions required. Normal care should apply.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

No data available.

15. Regulatory information**Safety, health and environmental regulations specific for the product in question**

WHMIS 2015 Refer to HAZARDS IDENTIFICATION, Section 2

16. Other information**Other information**
